

# El Tecnológico Nacional de México Campus Linares en colaboración con la Red Internacional de Investigación e Innovación para el Desarrollo Sostenible (RIIDS)

## OPEN CALL

To Professionals, teachers, researchers, undergraduates, masters and doctoral degree candidates, and others engaged in research and teaching work on sustainable development and the use of alternative energies, we invite you to participate in the

## 1st International Virtual Congress on Sustainable Development and Alternative energies

9<sup>th</sup>-11<sup>th</sup> of October, 2023

### GOALS

- To provide a constructive international space and support base for research development of different sectors of society, in which participants will be able to discuss and exchange ideas, present projects/results in process to a global audience of students, researchers, and academics, on current topics related to sustainable development and energy alternatives
- Strengthen academic collaboration and research between a variety of national and international institutes

### ACTIVITIES

- Keynote lectures
- Presentations of articles
- Presentation of posters
- Courses and workshops

### THEMES

- Education for sustainable development
- Sustainable development in companies
- Alternative energies
- Engineering and sustainable processes
- Sustainable agriculture, natural resources, biodiversity and climate change

### IMPORTANT DATES

Opening call: March 10, 2023  
Deadline for receipt of abstracts: June 30, 2023  
Closing date: October 06, 2023.  
Payment deadline: June 30, 2023  
Deadline for submission of papers and posters: September 11, 2023.  
Deadline for registration as an attendee: October 06, 2023.  
Date to download certificates of participation: October 16, 2023.

### REGISTRATION

To participate in the congress, interested parties should register and send their abstract to the following official Congress site: <https://linares.tecnm.mx/congreso/control/vistas/login.php>  
**Closing date: 11:00 p.m., June 30, 2023**

For each project presented, at least one of the authors (usually the one presenting) is required to register. Registering as an attendee provides access to all presentations and videos in all sessions (keynote speeches, courses and workshops, etc.) In addition, all of the records (author or attendee) include certificates of participation.

### REQUIREMENTS

- The file with the abstract must appear as follows: author's surname first name\_congressDSEA2023\_abstract.
  - Do not include references, images, or graphs in the summary.
  - The abstract must be uploaded as a PDF file to the Congress official page.
  - Abstracts should be sent in Spanish or English (for non-Spanish-speaking authors only).
- Projects are limited to a maximum of five authors.  
The scientific committee of the Congress will revise all submitted abstracts according to their relevance and quality.

The receipt must be sent with the subject:  
**Registro\_Nombre\_Apellido\_CongresoDSEA**

### PRESENTATION OF ACCEPTED PROJECTS

The authors may present their projects as a paper or as a poster.

#### • Presentation.

Slides	Video Slides (recommended)
<b>10-15 slides</b> (1) Your submission should not include any form of animation. (2) You may use the <b>template to present your work</b> .	<b>10-15 slides</b> You can make your video presentation in several simple ways: (1) record your screen and voice while performing the presentation, using the software of choice. (We suggest you use Open Broadcaster.); (2) You can modify the <b>template for presentation of work</b> (uploaded on the official page of the congress) in a video, with the narrative; (3) Any other technique or method that results in one of the following audiovisual files.
PDF	MP4
<b><u>Additional clarifications:</u></b> -Once your summary abstract has been checked you will receive an e-mail from a member of the organizing committee ( <a href="mailto:posgradoeinvestigacion@linares.tecnm.mx">posgradoeinvestigacion@linares.tecnm.mx</a> ) with method of payment instructions. -After making your payment you will receive an e-mail from the coordinator of the event design page ( <a href="mailto:soporte_congreso@linares.tecnm.mx">soporte_congreso@linares.tecnm.mx</a> ), who will provide you with an email username and password in order to access the Congress webpage. - In addition to those mentioned above, there are other ways to produce the required file types and on a variety of operating systems or devices. Users are free to choose preferred method. We are not responsible for any damage caused by third party software. - The files will be accessible only to the registered participants, and will be deleted after the Congress. - Slides and videos will be displayed directly on the website for the entire duration of the congress (on 9, 10 and 11 October 2023). - During this period, the platform will be accessible 24 hours a day. - We are not responsible for third party software.	

#### • Poster

Traditional format	Slides (recommended)
Template	<b>5 slides</b> This format will replace the traditional science poster.

Download the official <b>Congress template</b> (Template 90 x 120cm)	The "posters" will have five slides: introduction, material and methods, results, discussion and conclusions (or any combination of these or other sections). This way, we can ensure that the text and the pictures have the proper resolution.
PDF	

### PUBLICATION OF EXTENSIVE PROJECTS

Papers that authors wish to have considered for publication in the journal INNOVAITESCYT LOS CABOS (ISSN2395-8340), edited by the Instituto Tecnológico de Estudios Superiores de Los Cabos, an indexed annual journal that publishes, original articles in Spanish, reviewed by peers. It Includes multidisciplinary, engineering-related topics (biochemical, civil, electrical, computer systems, information and communications technologies), architecture, biology, teaching and administrative economic sciences. This journal has agreed that selected articles presented in the First International Congress on Sustainable Development and Alternative Energies will be included in the 10<sup>th</sup> edition of the journal, and peer-refereed by Instituto Tecnológico de Estudios Superiores de Los Cabos

**INNOVAITESCYT | LOS CABOS**

**PUBLICACIÓN CIENTÍFICA ARBITRADA**  
INGENIERÍA, TECNOLOGÍA, INNOVACIÓN, CREATIVIDAD Y DESARROLLO TECNOLÓGICO

Authors who wish to submit their work for publication in full should do so in the registration platform, and follow the instructions.

The congress review committee will make a selection of the best presentations, which will then be submitted for evaluation according to the journal's standard procedures. This extensive evaluation process will be double blind, and process of evaluation is estimated to take 120 days after being submitted to the **1st International Virtual Congress on Sustainable Development and Alternative energies**

Please note that submitting your article to the Congress does not imply any obligation to publish on the part of the Journal INNOVAITESCYT LOS CABOS, but all authors will be provided with detailed and informed commentary by the editorial committee.

Cases not provided for in this call for projects will be resolved by the organizing committee.
